MAKERERE UNIVERSITY

Fact Book

2024- 2025

Introduction

The 2024-2025 Makerere University Fact Book is a compilation of information by the Directorate of Planning and Strategy (DPS), intended to provide a convenient and concise summary of key metrics about the university. The information presented represents both the Fiscal and Academic Years, and where appropriate, multiple years of data are provided for historical perspective as well as address some of the most frequently asked question. This edition is a reflection on the midterm review of the Mak Strategic Plan (2020-2030) and how the university performed over the past five years 2020/21 – 2024/25 based on the NDP III aligned Mak Strategic Plan. The information is synthesised from the university’s different data systems albeit amidst system restructuring challenges.

The University factbook complements the University’s Annual Report by providing the quantitative aspect on key information from across the university. We continue to update content and improve formats on an annual basis, based on the feedback from stakeholders. At the same time, we want to enhance your understanding of the scope and progress of the university.

DPS expresses a special thank you to the many individuals and offices from across the university who contributed information in the preparation of this publication. As you review, please know that your comments, feedback, and suggestions on how to continuously improve future editions will be gladly received. We want the information to be as useful as possible.

Thank you.

Mr Emmanuel Kitamirirke
Ag. Manager, DPS

General Information

History

Makerere's journey began on 1st August 1922, when it opened as Makerere College with courses in Medicine, Agriculture, Engineering, and Teacher Training. Over time, it grew into a regional hub of learning, first affiliating with the University of London (1949–1963), then becoming part of the University of East Africa (1963–1970), comprising Makerere, Nairobi, and Dar es Salaam. In 1970, an Act of Parliament gave birth to Makerere University, Uganda's national university. Today, it is guided by the 2001 Universities and Other Tertiary Institutions Act (UoTIA, 2001).

University Governance

The University Council is the supreme governing body. The University Council works through nine Committees, including: Appointments Board; Audit, Finance Planning, Investments & Administration; Student Affairs & Disciplinary; Estates & Works; Staff Development Welfare & Retirement Benefits; ICT, Quality Assurance and Gender, Legal, Rules and Privileges, and Senate. The Academic matters are channelled to the Council through the Senate. The cross-cutting issues are handled by the two joint committees of Council and Senate, namely, Information Communication and Technology, Quality Assurance & Gender mainstreaming; and Legal, Rules & Privileges Committees, as shown in Figure 1. The University Management is responsible for the operations and management of the University. The Vice Chancellor provides leadership and chairs the management committee.

The Dean of Students has oversight over the University's student governance affairs. The student's governance comprises the Guild Executive, headed by the Guild President, who and the Vice-President are members of University Council. Graduate students have a subsidiary council for graduate students to handle their affairs. The Chair for Graduate Council and the Guild President are members of the Senate Committee. The Guild Representative Council (GRC) is the representative body of students from the Colleges and Halls of residence. The student body is governed under the student rules and regulations as gazetted in the Makerere University Students Guild Constitution as amended in February 2016.

Academic Programmes

The University and its affiliated institutions continue to offer several academic programmes at both undergraduate and graduate Levels. In the past five years, there have been a total of 448 programmes. Of these 165 undergraduate programmes (9 diplomas & 156 bachelors) and 283 graduate programmes (25 postgraduate diplomas, 196 masters, and all colleges with the provision for offering doctoral degrees either by research only or course work and dissertation (62 programmes).

Admissions

Undergraduate Admissions

Makerere University has three admission channels to the undergraduate programmes: Direct Entry scheme for students who have completed secondary school and sat the Uganda Advanced Certificate of Education (UACE) with at least two principal passes at the same sitting; Diploma/degree holders' scheme, for students from other tertiary institutions seeking to obtain a university degree; and the Mature age entry scheme for students who have been out of the formal education system for not less than six years. The admission criteria, however, fall under two different categories: government scholarship and fee-paying schemes. The government-sponsored category is further subdivided into national merit, district quota, disabled, diploma, mature, and talented sports students. The fee-paying is further categorised as self-paying, loan scheme, private sponsors, and international. For more information's refer to <https://mak.ac.ug/education>

Over the years, the number of eligible A'level leavers joining university education has increased to over 80,000 students (Tab. 6), with Mak taking on 32 percent.

Graduate Admissions

Makerere University admits students to pursue programs leading to the award of a postgraduate diploma, master's, or doctoral degree. All graduate admissions for graduate programs are fee-paying (private and international). The requirement for admission is a minimum of a second-class degree from a chartered university. For more information, refer to <https://dgt.mak.ac.ug/>

The background features a faded image of a large, light-colored building with a prominent clock tower. The building has blue accents on its windows and doors. In the foreground, the tops of several cars are visible. The image is decorated with various geometric elements: a diagonal band of green, red, and black stripes in the top-left corner; a series of parallel vertical lines in gold, green, and black on the right side; and large, overlapping red and green geometric shapes at the bottom right. A red rounded rectangle with two green dots on its right side frames the page number.

The total enrolled students over the period declined by 72 % from 2019/20 to 2024/25. The undergraduate enrolments recorded a decline of 34 %, and postgraduate enrolments recorded an increase of 24 % over the period. The decline in undergraduate enrolment is attributed to closure of the country due to covid-19 and thus there were no A-level students for sat for Uganda Advanced Certificate of Education which later affected the academic calendar and admission. The average graduate enrolments over the period stands at 16 % of the total enrolments.

The background is a faded photograph of a building with a prominent clock tower. The building has light-colored walls and blue shutters. In the foreground, there are some cars and trees. Overlaid on the image are several decorative elements: a diagonal band of green, red, and gold stripes in the top-left corner; a series of parallel lines in gold, green, and black on the right side; and large, overlapping geometric shapes in red and green at the bottom right. A red rounded rectangle with two green dots at its right corners frames the page number.

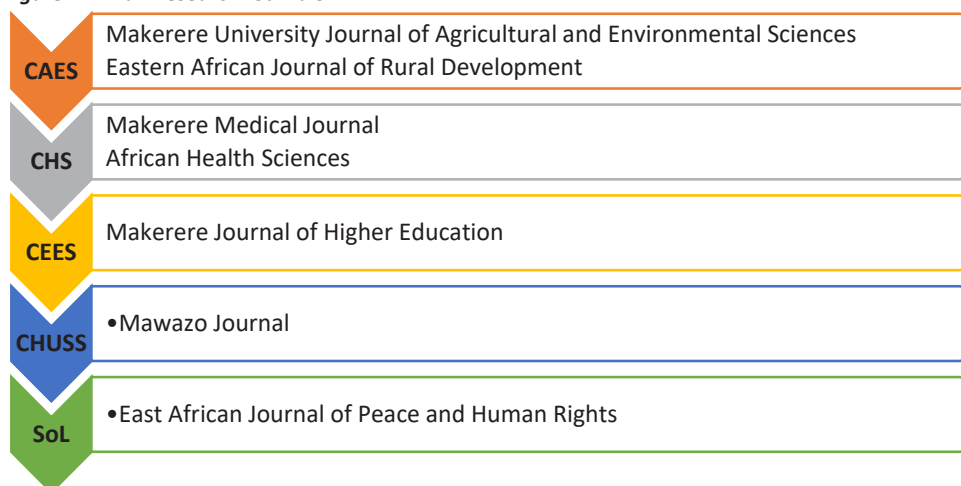

Research

05

Research

Research and innovations constitute the heart of the vision and mission of Makerere University. The university is a host to seven research journals in the fooling colleges CAES and CHS are host to two journals each, while CEES, CHUSS and School of Law are host to one journal each as summarised in Figure 21.

Figure 21: Mak Research Journals

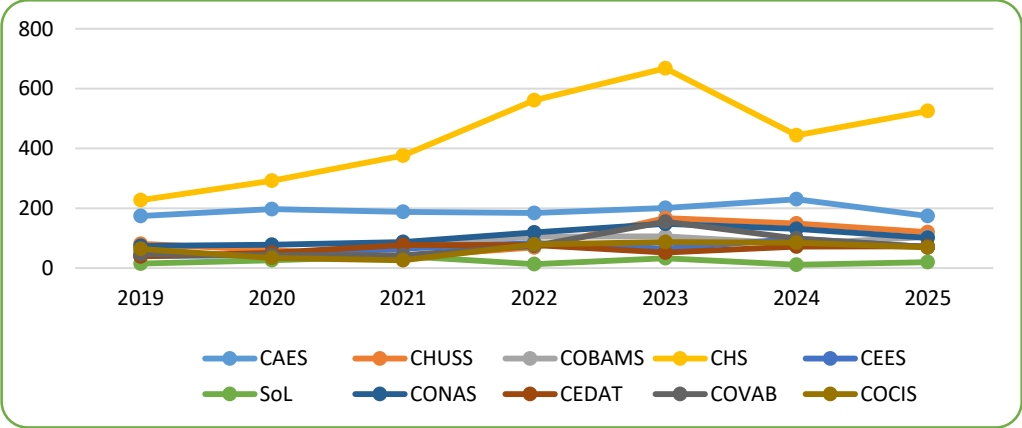

The University through the various colleges produced over 1000 research publications over the years. The College of Health Sciences accounted for the bulk of the publications.

Rankings

A number of organisations continue to rank Mak on a number of parameters and methodologies. The Times Higher Education (THE) places incorporate a wider range of indicators, including teaching quality, research environment quality, industry engagement and income, and international outlook. The Webometrics World University Ranking (Webometrics) places emphasis on a university's online presence and its openness in conducting research, reporting research visibility, and academic excellence. Conversely, QS World University ranking (QS), universities are assessed based on academic reputation, employer reputation, student-faculty ratio, and citations per faculty. The Centre for World University Rankings (CWUR) assesses the quality of education, employability, quality of faculty, and research. Eduarank utilises the world's largest scholarly papers database with scientific publications and citations to rank universities across 246 research topics based on research outputs, non-academic prominence, and alumni influence. The SCImago Institution Rankings (SIR) is based on a composite indicator that combines three different sets of indicators based on research performance, innovation outputs, and societal impact measured by their web visibility. Overall, QS and THE are more focused on perception and evaluating university inputs, and Webometrics focuses on transparency, university accessibility, and academic connectedness and impact in a global sense through the web.

Makerere consistently ranks top university in Uganda across most rankings. A summary of how Mak has fared in several major university ranking organisations both globally and regionally over the past years is presented in Table 15. The key patterns observed show that all organisations present a lower band globally but top in Africa, with improvements made in 2025, and Edu rank highlights research strength.

Academic Staff

The Academic staff at a Makerere university are the individuals primarily responsible for teaching, research, and other scholarly activities. They are the heart of the academic community, leading the educational process and advancing knowledge within their respective fields. The academic staff encompasses a wide range of positions, including professors, lecturers, research fellows, and academic assistants, among others. The tables and figures below provide a picture of the academic staff profile at Makerere University.

Makerere has seen growth in senior academic staff over 400 staff during the past years. The senior academics (comprise of professors, associate professors, and senior lecturers) play roles in research leadership, postgraduate supervision, and academic management

Non-Academic Staff

The non-academic staff at Makerere University comprises the administrative and support employees. They are employees who are not directly involved in academic instruction or research but rather support the operations and administration of the institution. This category of employees provides essential support services such as administrative tasks, library services, technical support, and maintenance, ensuring the smooth functioning of the university. The tables and figures below provide a snapshot of the non-academic staff profile at Mak.

Staff Development

Professional development in universities is a crucial ongoing process for staff, encompassing various activities like skills enhancement, research development, and career advancement. The ever-changing higher education landscape thus calls for continued education and professional development, which are critical components for a university like Makerere. In her quest to stay relevant, enhance the skills, and advance the careers of its staff, professional development is seen as a means of advancing its core mandate. In addition, based on the university staff policy, the PhD qualification requirement is seen as the minimum for academic staff at the senior level. Thus, assistant lecturers, teaching assistants and graduate fellows' positions are categorised as training levels for academic staff, taking the larger part of staff development.

The background of the cover is a faded photograph of a university building with a prominent bell tower and blue-shuttered windows. The page is decorated with several geometric elements: a diagonal band of green, red, and gold stripes in the top-left corner; a series of vertical lines in gold, green, and black on the right side; and a large, overlapping red and green polygon in the bottom-right corner. The title 'University Facilities' is centered in a bold, black, sans-serif font. Below it, the number '07' is displayed in a large, gold, sans-serif font, enclosed within a red rectangular border with rounded corners. Two small green dots are positioned on the right side of this border, aligned with the top and bottom edges.

Makerere University has off-campus academic land attached to specific Colleges. These include the following:

1. Mulago and Kasangati Health Centre under the CHS
2. Makerere University Agricultural Research Institute (MUARIK) and Makerere University Biological Field Station -Kibale Budongo Forest Reserve under CAES.
3. Buyana Farm and Nakyesasa under CoVAB.
4. Makerere Institute of Social Research under CHUSS.

The Makerere University E-Learning Environment (MUELE) is an online learning management system used as the default electronic learning platform managed by the E-Learning Department at CEES. Over the years, the courses uploaded on MUELE have increased from 456 in 2015 to 1915 in 2022. The transition to blended learning necessitated the move of courses into the online platform as a result of Covid-19 pandemic.

Library

Mak has a main library situated at the main campus, constructed in 1959, occupying 12,000 square meters. The library also operates ten college libraries, seven at the main campus and three outside the campus. Mak libraries are a host to 3.3 thousand titles (all formats) and provide access to more than 3.8 thousand users annually. Over the years, the total library holdings (titles) have increased by 13 percent, and full-text downloads by 74 percent. The library is designed to support teaching, learning, and research. It also serves as a National Reference Library.

Budget Performance

Over the years, the University has continued to have three main sources of funding, notably Government of Uganda funding, non-tax revenue/appropriation in aid, and donor support, where the first two have been consolidated into government subvention. Non-tax revenue comprises income earned from tuition fees, functional fees, rent, and other internal income sources. The donor support comprises research grants either to individual staff members or to specific academic units.

University Endowment Fund

Besides government and donor funding, as part of the strategy to diversify its financial resources, the University has an Endowment Fund with two parallel funds, namely the Off-Shore Fund managed by Crown Agents Investment Management Limited based in the United Kingdom and the Local Fund managed by Gen Africa Limited based in Uganda.

Over the past years, by the close of the financial year June 2025, the total fund value increased from £1.37 million to £1.92 million for the offshore fund and from UGX 0.66 billion to UGX 4.46 billion for the local fund. On the offshore fund value shows an upward growth trend in the fund value due to the increased investment in different asset categories. The local fund value grew in an exponential trend due to the coming on board of two additional endowment funds and their contributions, namely: College of Business and Management Sciences and College of Computing and Information Sciences in June 2022. By June 2025, the Mak Endowment fund made a total contribution of UGX0.95billion, CoBAMS a total contribution UGX0.34billion and CoCIS a total contribution of UGX0.63billion. Thus, giving a total contribution UGX1.92billion towards the fund value. The decline in the offshore fund value in March 2020 was attributed to the market volatility occasioned by the Covid-19 pandemic health crisis.

Research Grants

The University continues to largely receive research funding from Development Partners. The College of Health Sciences recorded the biggest volume of documented research funds in the University. In terms of funding agencies, USAID, National Institute of Health, Bill and Melinda Gates, European Union, Norwegian Support under NoRHED, Mastercard Foundation to mention but a few, recorded the highest volume of documented support for research. The figures below give an overview of research grant support while attempts have been made to highlight the funding information that span across years.
